Attachment #2  
OSA 0246-69

ANNEX II

MATERIEL/LOGISTICS

I. Materiel Policy:

USAF materiel policies and procedures will apply except when deviation is authorized by Project Headquarters or the Project Depot.

II. Materiel Responsibility:

The Detachment Commander will be responsible for the custody and condition of all assigned property in accordance with the provisions of AFR 67-10 as amended.

III. Administrative Supply Support:

Normal supply and office equipment support will be provided by the Project Depot and the Project Headquarters Depot Liaison Office. Close coordination will be maintained with the Project Headquarters Liaison Office.

Special requirements which exceed the support rendered above will be submitted to Project Headquarters for approval. Requirements which are beyond the capability of the Depot to support will be provided through Project Headquarters.

IV. Maintenance Concept:

Assigned aircraft will be maintained in a Transient Maintenance Status while on station. All phase inspection requirements and field/depot maintenance requirements will be the responsibility of WRAMA at Robins AFB, Georgia.
